

Multipurpose helmet designed for use in adventure parks, via ferrata and climbing courses.

Main features:

- wraparound shell with a reduced size;
- lightweight, comfortable and well ventilated, thanks to the ten openings on the shell;
- fastening system of the chinstrap and headband, with a flat profile clip;
- fully adjustable and suitable for men, women and children;
- lightweight shell made of ABS and inner-lining made of expanded polystyrene;
- inner water repellent foam, easy to wash and particularly suitable for adventure parks and climbing schools.
