

Hoolie 2 Footprint

Short Description

The Hoolie 2 Footprint provides additional protection by sitting under the groundsheet and porch area.

Long Description

Hoolie 2 Footprint

Although we are confident that our Wild Country products will outperform any similar groundsheet fabric available, we recommend the use of a footprint to provide increased protection against sharp objects.

- This footprint is compatible with the Hoolie 2 and Hoolie Compact 2 tents.
- The footprint is sized to fit under each model's flysheet, covering the inner tent and porch area.
- Attaches to the tent peg-out points using shock cord loops.

Guarantee

This product is guaranteed to the original owner against defects in materials and workmanship for a period of 1 year from purchase.
