

MORFO SET UL PRO

REF.NO. 2E725

An ergonomic and high-performing robust quickdraw equipped with hot-forged carabiners and tapered slings. Ideal for high-level sport climbing. Characterized by a dynamic and modern design and it is one of the lightest quickdraws in its category.

Main features:

- the nose of the carabiners have been designed with the snag free shape;
- the upper carabiner has an ergonomic diagonal indentation;
- the lower carabiner has a hot forged bent gate;
- the spine has a curved shape for optimal grip;
- the area where there is contact with the anchor has been reinforced to ensure maximum lifespan;
- ultralight sling with variable widths (25/16 mm) made from ultra-high molecular weight polyethylene;
- reduced thickness of the sling which makes it very flexible and less bulky;
- the FIXBAR positioning element on the upper carabiner prevents it from rotating around the sling and/or anchor, avoiding the possibility of cross-loading on the minor axis;
- the FIXIT positioning element on the lower carabiner prevents it from rotating during use and protects the sling from wear and tear;
- available lengths: 12 – 17 – 22 cm.

 Blue / Orange
