

# XSRE Wire

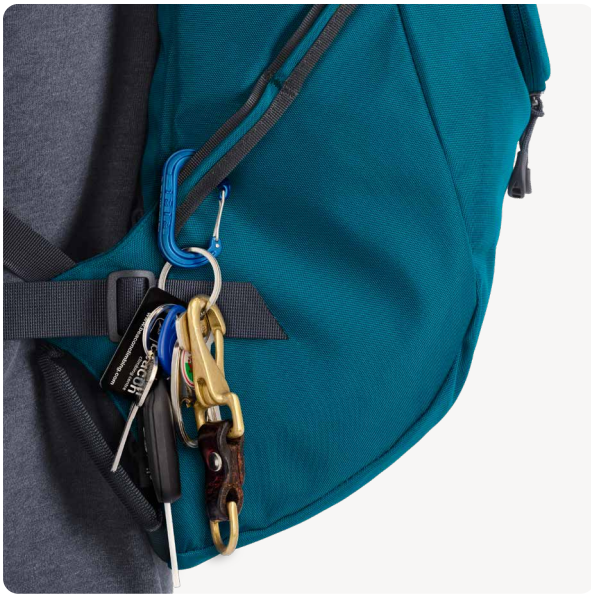

## The Wee-Wire

is how we fondly term our new XSRE wire gate carabiner. The XSRE wire is the newest addition to the hugely popular XSRE family. With an offset oval wiregate and I-Beam construction for optimum strength to weight ratio, the wire gate option is also the most affordable XSRE carabiner in our range.

XSRE WIREGATE V01

Available in 10 highly saturated colours.

## FEATURES

- Symmetrical D shape
- I-Beam construction for optimum strength to weight ratio
- Wider gate opening of 16mm
- DMM quality on accessory carabiner
- Wiregates perform better in snow and icy conditions
